Traffic flow agent

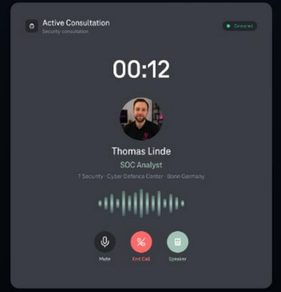

Summarized by AI

An external vendor agent is **reaching within its scope** at the MCP Gateway — detour signal timings are granted.

DETECTED SIGNALS 1 granted · ~1 min

- Detour signal timings — 11:36:34

54 SMARTSCORE™
Out-of-profile access

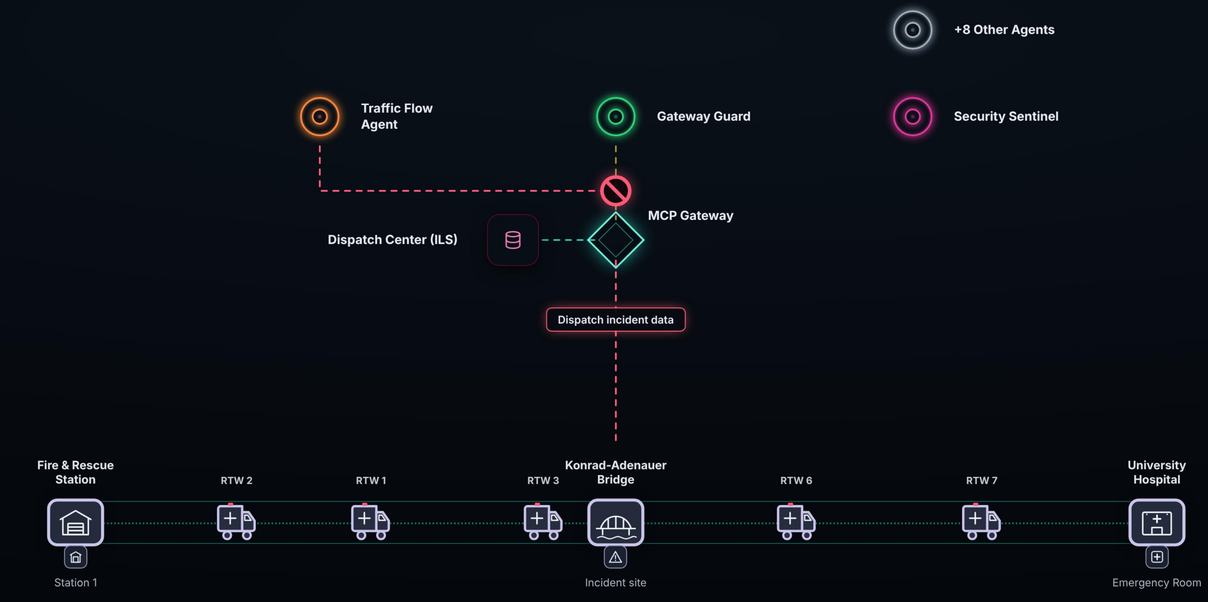

Traffic agent · out-of-profile data request

Summarized by AI

The agent now **reaches past its scope** — dispatch incident data requested and **denied** at the gateway. 0 records exposed.

The **Security Sentinel isolated the traffic agent** into quarantine. The intersections hold their current plan during the switch-over — the green wave for ambulances stays on.

The **City Traffic Orchestrator** has taken over the detours — standard signal plans run, every ambulance keeps its green wave. The city stays in control.
